Little Glen Lake is a gorgeous lake. It has a spectacular smallmouth bass fishery with bass reaching over 23 inches! Fish the dropoffs in red. This lake is shallow. The fish move back and forth from Little to Big Glen which has great perch fishing. This lake freezes very early so it receives a fair amount of ice fishing pressure. Most folks target pike in the blue areas and there are some good ones. Make sure you see Soni Aylesworth at Empire Outdoors before heading out. He'll point you in the right direction and he's got a great tackle shop!
